

Benefits of Membership

Subscriptions

Members receive a calendar year subscription to *Elements* Magazine [6 issues].

Optional subscriptions to *Geochimica et Cosmochimica Acta* (GCA) [24 issues] and *Geochemistry Geophysics Geosystems* (G-cubed) [on-line] are also available to members at special rates.

Publication Discounts

40% off the Geochemical Society Special Publications Series

25% off most MSA publications including RIMG

25 % off Elsevier book orders

Registration Discounts

Goldschmidt2010

13-18 June, 2010

Knoxville, TN, USA

Donations Accepted

Our programs and operations are always in need of your financial support. Please consider making a charitable contribution with your membership. Contributions may be made to the general operating fund (where needed most) or to specified programs such as the Goldschmidt Travel Grant Program, the Meeting Assistance Program or another focus of your choosing.

For more information on our programs, please visit our website:

www.geochemsoc.org

The Geochemical Society is a 501(c)(3) nonprofit organization. Donations made are tax deductible where applicable.

Elements Magazine is a bi-monthly (6 issues/yr) publication of the Geochemical Society and several associated societies.

Every issue explores a theme of broad and current interest in the mineral and geochemical sciences as well as regular features like a calendar of events, short course announcements, highlights of groundbreaking papers, awards, conference reports, policy news, and news of the Societies.

Elements publishes invited peer-reviewed invited papers for its thematic collection of papers.

All Geochemical Society members receive a hardcopy subscription to *Elements* and full-access to online back issues as part of their membership.

The **Geochemical Society** is a nonprofit organization dedicated to globally encourage and promote the application of chemistry to the solution of geological and cosmological problems.

The underlying principles and values that guide our mission are:

- To understand and meet the needs of our members, the geochemical community and the general public with regard to geochemistry;
- To provide opportunities for geochemists through information, education, relationships and resources;
- To advance the understanding and application of geochemistry internationally.
